SYDNEY METRO NORTHWEST – OPERATIONS, TRAINS AND SYSTEMS

Norwest - Construction update including out-of-hours work

The \$8.3 billion Sydney Metro Northwest is the first stage of Sydney Metro – Australia’s biggest public transport project. The Northwest Rapid Transit Consortium (NRT) is delivering eight new railway stations, 23km of new track, 4,000 commuter parking spaces and Sydney’s new generation of safe, reliable and fully automated metro trains. NRT will deliver this critical infrastructure and operate and maintain it for 15 years.

In **May 2016**, site establishment work at the Norwest station site will be completed. Construction activities will commence for the station precinct and track work within the tunnel network. The construction activities identified below will be undertaken for a period of at least **6 months**.

Work vehicles will enter and exit the site via access points off Brookhollow Avenue, Norwest.

Work in the station box will generally be carried out between standard work hours of **7am – 6pm Monday to Friday and 8am – 1pm on Saturdays**. Residents and businesses will be notified in advance of any station work that is required outside of standard hours.

Work within the tunnels will be undertaken **24 hours a day, seven days a week**.

Activities will include:

- Surveyors around local roads
- Trucks and other vehicles will enter and exit the construction site from Brookhollow Avenue
- Construction machinery and equipment operating onsite including cranes and trucks
- Operation of a temporary concrete batch plant
- Clearing of vegetation in line with environmental approvals
- Laying concrete within tunnel network to create a flat floor that the track will be laid on
- Tunnel fit out works
- Delivery of materials and equipment to site (oversized material and equipment will be delivered out of hours to comply with Roads and Maritime Services requirements)
- Service identification on Norwest Boulevard, Brookhollow Avenue and Century Circuit.

We will manage impacts by undertaking the following activities:

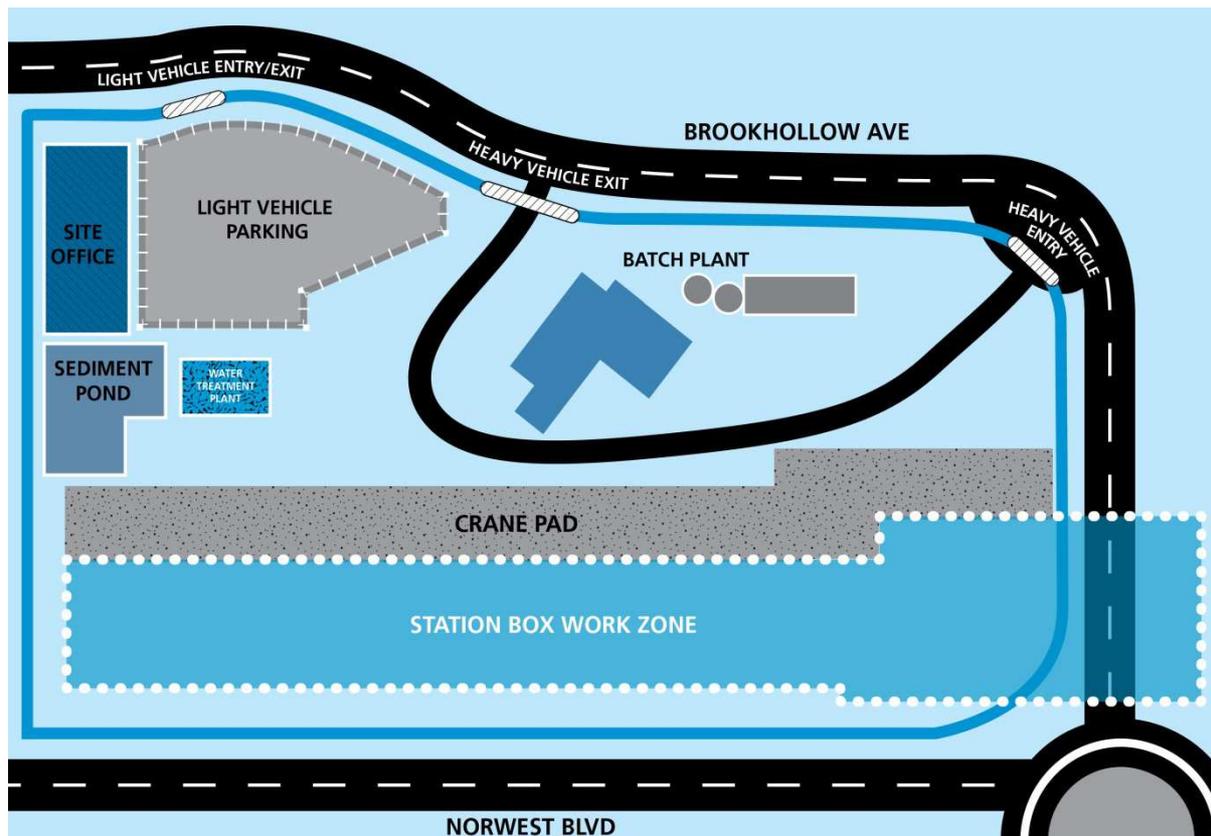

- Implement traffic and pedestrian control measures where required
- Use of water carts to manage dust as required
- Notify neighbouring residents of any out-of-hours deliveries of equipment
- Use of measures to minimise the impacts of noise such as non-tonal reversing alarms and respite periods for high noise activities

Residents and businesses will be notified in advance of specific construction activities as required.

To make a complaint, register for email updates or for more information phone **1800 019 989** (operating 24 hours a day, 7 days a week), email us at trains@metronorthwest.com.au, or visit www.sydneymetro.info/northwest.

Thank you for your patience and cooperation while we carry out this important work.

ABOUT THE PROJECT

- The Sydney Metro Northwest will be delivered as part of Sydney's Rail Future – a customer-focused plan to modernise our trains. Over the coming decades, an extra 200,000 people will move into the region, taking its population above 600,000.
- New automated single deck trains will deliver a fast, safe and reliable service.
- There will be no need for a timetable - customers will just turn up and go, with a train every four minutes in the peak.
- The project includes 15km of tunnels between Bella Vista and Epping, a 4km skytrain viaduct section and the conversion of the existing Epping to Chatswood rail link to the new metro system.

ABOUT THE OPERATIONS, TRAINS AND SYSTEMS WORKS

- Northwest Rapid Transit (NRT) is delivering eight new railway stations, 4,000 commuter parking spaces and Sydney's new generation of metro trains and will operate and maintain the Sydney Metro Northwest
- The works will include:
 - Building eight new railway stations and 4,000 commuter car parking spaces
 - Delivering Sydney's new generation of metro trains
 - Building and operating the stabling and maintenance facility
 - Installing 23 kms of new track and rail systems
 - Converting the existing 13 km Epping and Chatswood line to metro status
 - The operation and maintenance of the Sydney Metro Northwest
